The Solutions Cylinder

Don't make your design to "fit the cylinder"
Get the cylinder to "fit your design"

Custom solutions:

- Quick quotes and drawings
- Fast delivery
- Compact designs
- Low breakaway and running friction
- Optimal materials and construction, and footprint.
- Standard catalog cylinders available as well
- 100% precision-machined
- Field rebuildable

Design Innovation into your Automation

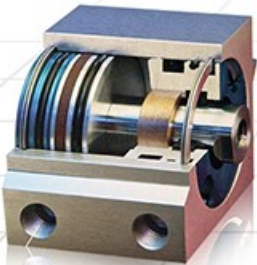

Delivering the best solutions from concept to prototype

Smaller for greater savings

- **Nason's** focus on space savings gets designed into every product ensuring maximum efficiency, effective use of space, maximum power and long life in with no wasted space.

Smarter for more flexibility

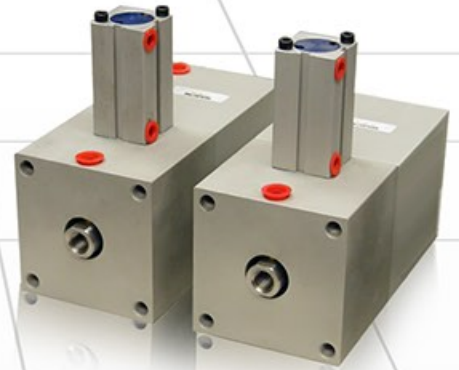

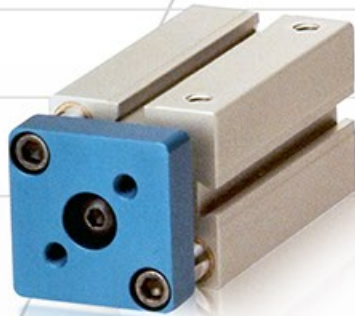

- **Nason** easily accommodates your design specifications for drilling patterns, hole/contour geometry, ports, and mountings. Quick prototypes, small or large quantities.

Stronger for life

- **Nason's** Cylinder bores are precision machined to ensure long life, minimal breakaway and maximum performance.

Cowper Inc. – Your source for optimized automation flexibility, efficiency, safety, and ease-of-use.
